Lauren Child

Lauren Child's humorous illustrations contain many different mediums, including magazine cuttings, collage, material and photography, as well as traditional watercolours.

Writing for younger children, she is best known for her Charlie & Lola and Clarice Bean picture books and novels, completely written and illustrated by herself.

Lauren began writing a series familiar to Clarice Bean readers in 2009: the Ruby Redfort series, based on Clarice Bean's favourite literary character. One of her most recent books, The Goody, is a very funny tale about being good, being bad and being you.
